PROFESSIONAL SUMMARY

Senior UX Designer with 5+ years delivering end-to-end design for complex enterprise products — from executive-level Solution Discovery to production-ready prototypes and front-end code. Built scalable digital ecosystems at Fortune 500 scale across financial services, industrial, retail, and public sector. A "Designer who builds" — combining deep UX craft with HTML5, CSS3, Vanilla JS, and AI-assisted development to ensure every design vision is technically feasible and built to last.

CORE EXPERTISE

Enterprise UX & Strategy: Solution Discovery, Stakeholder Orchestration, Workshop Facilitation, Service Design, Research Synthesis (JTBD, Journey Mapping), AI Experience Strategy, Salesforce Ecosystem (Agentforce, Sales/Service/Experience Cloud, FSC)

Product Design: Enterprise Design Systems (Figma), Atomic Design, Data Visualization (Geospatial/Dashboards), User Flow Logic, Accessibility (WCAG), Interactive Prototyping, Technical Specification & Documentation

Technical: AI-Assisted Development (Claude/Prompt Engineering), HTML5/CSS3 (Flexbox/Grid), Vanilla JS (ES6+), LWC Technical Alignment, Performance Optimization

PROFESSIONAL EXPERIENCE

Salesforce | Senior Experience Consultant | Jun 2022 – May 2026

- **Industrial Asset Portal (Global Industrial Technology Leader):** Partnered with the UX Architect to bridge engineering data with field operations — co-facilitating 22+ workshops to synthesize findings into an End-to-End Journey Map and architecting a scalable Design System that reconciled 500+ custom-built brand components with Salesforce Lightning constraints. Drove 100% technical feasibility through agile collaboration with Accenture and Solution Architects, contributing to a 25% reduction in asset downtime, 70% increase in worker productivity across 700+ field service employees, and a 7% service revenue increase.
- **Fortune 500 Fintech (Financial Services):** Led UX design for the FY26 "Solution Discovery" phase, helping transition 19,000+ branches to an 80% OOTB-first, "Single Pane of Glass" architecture. Designed the integration experience between Financial Services Cloud and proprietary tools to enable a "Planning-Led" advisor model, and defined the interaction framework for AI-driven "Next Best Action" prompts across 8M+ client profiles.
- **Proven Across Industries:** Delivered UX strategy and research synthesis for 8+ additional enterprise engagements spanning Retail, Manufacturing, and Public Sector — consistently producing pixel-perfect, clickable prototypes that served as the "Technical North Star" for stakeholder alignment and development handoff.

Traction on Demand (Bettr.me) | Founding Product Designer & Frontend Developer | Mar 2021 – May 2022

- **End-to-End Product Ownership:** Operated as the sole design authority within a cross-functional squad of 7 — architecting an employee wellness ecosystem spanning mobile apps, geospatial sentiment dashboards, and gamified activity heatmaps.
- **Full-Stack Execution:** Led visual brand strategy and hand-coded the production marketing engine in HTML, CSS, and Vanilla JS — delivering 100% design-to-code fidelity and optimized browser performance across the full platform.

Additional Experiences

- **UX/UI Designer (Contract):** Designed responsive CRM interfaces (Autolyze) and global tablet ecosystems (Pebble Gear).
- **Frontend Developer (Volunteer):** Built React.js search and authentication functionality for the AssistList platform.

CERTIFICATIONS & EDUCATION

- **Education:** Post-Degree Diploma in Web and Mobile App Design and Development, Langara College
B.A. in Apparel Design, Konkuk University, South Korea
- **Salesforce Certified:** User Experience Designer, Strategy Designer, Administrator, AI (Legend, Specialist, Associate)
- **AI & UX:** Conversational Design Institute (Conversation Designer CxD 1 & 2)
